Saskatoon: **At Home in Ancient Rome: A Special Exhibition** (until August 17th, 2018) - Museum of Antiquities, University of Saskatchewan (106 Peter MacKinnon Building, 107 Administration Place)

This exhibit invites you into the household of ancient Rome. It explores the daily life rituals of the inhabitants including the food they ate, the games they played, and the gods they worshiped as a reflection of their place in Roman society. Emphasis is given to the household of the 1st century BCE to

the 1st century CE and the demographic of a wealthier family. Our best preserved archaeological evidence for the ancient Roman household, and thus our exhibit, comes from the excavations of households in Pompeii, Herculaneum, and Ostia. Very little evidence for these types of households survive in Rome itself, but due to the cultural similarities of these locations in this time period and others throughout Italy, we have a very good idea of how wealthier households functioned in Rome. Curated by Helanna Miazga.

In the early 1900s, the Edwardian Gardens stood out as an oasis against Regina's treeless landscape. A Travelling Exhibit produced by the Diefenbaker Canada Centre. View the compelling stories of those who laid the foundation for women's rights in Saskatchewan, the struggles and successes experienced by local suffragists, and how they advocated for political representation. Visitors will gain a richer and deeper understanding of the history of suffrage by exploring the links between women's franchise, agrarian politics, the Great War, and the impact that global suffrage movements had on Saskatchewan. Sisters United not only highlights how women achieved the vote within Saskatchewan, but also shows the movement of women wanting to be recognized as persons. Though the personal stories of the seven featured suffragists, it showcases women who were strong leaders and activists within their community, at a time when this was not common or encouraged. Sisters United demonstrates the growth of a province and the emergence of a movement that resulted in the first important step towards women's equity rights, greater social reform and political justice.

It does not get any more Canadian than Canola! Canada / ola (oil low acid). How does a plant breeding innovation become, in just a few decades, the most profitable commodity for Canadian farmers? Part of its success is due to its versatility – this crop is used as a healthy culinary oil, a protein source for animals, to power cars and much more. Today, the canola industry contributes billions of dollars to the Canadian economy! Produced by the [Canada Agriculture and Food Museum](#) to mark the 50th anniversary of this 'Made in Canada' crop, Canola explores the science behind the development, cultivation and future of this crop, as well as its uses in industries from food processing to transportation. Discover Canola through your five senses and immerse yourself within the environments of the two bright yellow pod-shaped structures - a canola field, and a processing plant.

Saskatoon: **They Were There...Over There Travelling Exhibit** (until November 30th, 2018) - 2610 Lorne Avenue

Two Saskatoon Great War airmen are featured in a new Saskatoon Museum of Military Artifacts (SMOMA) exhibit, "They were there...over there". Drawing on the rich and diverse collection of the SMOMA, "They were there...over there" tells the story of the Great War and the role played by two Saskatoon men in the conflict. Lieutenant Stewart McKercher, a flying officer in the Royal Air Force, served in 11 Wing, No. 1 Squadron, from 1916 to 1918. He was shot down over Ypres, Belgium, in April 1917 and invalided home to Canada that fall. McKercher earned his law degree after the war and started one of the oldest Saskatoon law firms, McKercher LLP, in 1926. Basil Boyce signed up in Saskatoon at the start of the war and served overseas in the Canadian infantry before training as an observer with the Royal Flying Corps. Commissioned as a lieutenant in March 1917, Boyce was shot down a year later by Lothar von Richthofen, the brother of the famous Red Baron, and spent the remainder of the conflict as a prisoner of war. Boyce also secured a law degree after the war and spent almost three decades as the sheriff of Saskatoon. The Saskatoon Museum of Military Artifacts is located in the basement of the Nutana Legion. The SMOMA collection – without equal in the province – seeks to honour veterans and preserve Canada's military heritage. It also serves an important educational purpose. "They were there...over there," is the first major exhibit that the [Saskatoon Museum of Military Artifacts](#) has sponsored outside its legion headquarters. The exhibit, running from May to November 1918, marks the 100th anniversary of the end of the Great War. The Saskatoon Museum of Military Artifacts is delighted to partner with the Western Development Museum on this commemorative endeavour.

Call to Action: National Trust for Canada

Do you think #Budget2019 should include historic places? Add your signature. Raise your voice.

We are entering an exciting new phase in the Year of Action for historic places! Liberal MP John Aldag has agreed to sponsor a parliamentary petition that calls on the Minister of the Environment to ensure substantial funding for historic places in Federal Budget 2019.

Our collective job now: to demonstrate grassroots support by obtaining as many signatures on the petition as possible.

1. **Sign the petition** : [Petition e-1778 \(NATIONAL HISTORIC SITES\)](#)
2. **Share the petition with your contacts**

Why a parliamentary petition?

We want to show Government that support for historic places is an election issue, worthy of attention in Federal Budget 2019, a pivotal final budget before the next federal election. With thousands of signatures, we can send a message that places that matter to Canadians are at risk – including places of significance to Indigenous peoples – and owners and organizations struggle to save and renew historic places in ways that create green jobs, attract investment, and help fight climate change.

What's the strategy?

The goal of the Year of Action #changethegame4heritage campaign is to build momentum and have thousands of signatures by the end of the summer, combined with personal meetings with every Member of Parliament while they are home in their riding, and hosting a Day of Action on Parliament Hill when the House resumes sitting, just as MPs and cabinet ministers are finalizing their priorities for Budget 2019. Stay tuned for updates and instructions throughout the summer.

Help ensure that your MP will have a reason to take notice of historic places this fall. Be part of this grassroots movement!

How you can get involved.

- **Sign the parliamentary petition:** Our collective job now is to demonstrate grassroots support by obtaining as many signatures on the petition as possible
- **Help build the case:** We need your local examples of places in need (or already lost) due to lack of investment. These ARE ESSENTIAL to prove that **doing nothing** will have **negative consequences** for the economy, the environment and quality of life. [Email](#) us or tweet [@nationaltrustca](#) with every example you can find!
- **Make noise over social media:** Share your places at risk using our sample tweets in our [toolkit for action](#).
- **Support the Coalition:** [Offer your expertise](#). Make a [donation](#) toward research and advocacy expenses. Join our bi-weekly calls – just 30 minutes max every other week to hear what's happening, and learn how you can help.
